

Meeting Minutes
Group Number: 39
Meeting Date: 07 March 2017
Checkpoint Meeting? Yes
Next Meeting: 14 March 2017

Attendance:

Present: P | Absence (Approved): AA | Absence (Uninformed): A

Name	Present?
Shona Lowden	
Hasnain Bukhari	P
Orri Jonsson	P
Ajiri Owuasu	P
Tanzil Lashkor	P

Progress Review (From Last Meeting):

Completed: C | Ongoing: O | No Report: N

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Finish new gui for delete customer and implement, add a new view for view customer which shows all the customers bookings, finish manage users edit password	C
Orri Jonsson	Make sure that selecting multiple vehicles in the tables and clicking on view and or edit buttons will open the view or edit pages for all selected records. Add better comments to code and make sure it is organized properly	C
Ajiri Owuasu	Finalize the logic of the module, and focus work on finishing the implementation and functionality.	C
Tanzil Lashkor	Finish the edit and delete option of my module and start working on the search feature for bookings.	C

Plans (For Next Meeting):

Completed: C | Ongoing: O | No Report: N

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Complete delete implementation, implement view bookings controller, and fix bug in search code.	O
Orri Jonsson	Fix current bugs in database code for the vehicle records. Need to add more functionality to the gui controllers for the three different possible vehicle guis.	O
Ajiri Owuas	Integrate database and application with other necessary modules, ensuring conditions in documentation for the project are met.	O
Tanzil Lashkor	Finish implementing search for the diagrep module and finish display by different time units.	O

Issues:

Name:	Risks and issues:
Shona Lowden	
Hasnain Bukhari	Will need to delete other peoples records hence could run in to problems, fix search bug which is causing incorrect results to show up is taking a long time to diagnose
Orri Jonsson	Work may fall behind schedule soon so more work needs to be done early. There are a few bugs in the gui controllers for vehicles which may influence code outside of my module so it needs to be fixed.
Ajiri Owuas	Booking search terms needs to be validated, and current work may fall behind on schedule.

Tanzil Lashkor	Changes may break the module. Wrong data may be inputted into the database.
