

**Meeting Minutes**  
**Group Number:** 39  
**Meeting Date:** 21 March 2017  
**Checkpoint Meeting?** y  
**Next Meeting:** 28 March 2017

**Attendance:**

*Present: P | Absence (Approved): AA | Absence (Uninformed): A*

Name	Present?
Shona Lowden	
Hasnain Bukhari	P
Orri Jonsson	AA
Ajiri Owuasu	P
Tanzil Lashkor	P

**Progress Review (From Last Meeting):**

*Completed: C | Ongoing: O | No Report: N*

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Fix user null error, allow bookings to be viewed inside view customer view, hide password when setting new password	C
Orri Jonsson	Add finishing touches to the GUI on the vehicle records module. Fix the last couple of bugs related to the database connection when trying to add to the table view.	C
Ajiri Owuasu	Continue working on parts logic and integration, especially with installed parts available for booking	C
Tanzil Lashkor	Work on test cases. Comment my code. Find ways to make my more code more efficient.	C

**Plans (For Next Meeting):**

*Completed: C | Ongoing: O | No Report: N*

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Finish work on test cases. Work on fixing the authentication bug with newly created users. Make sure code is well commented and readable.	O
Orri Jonsson	Finish work on test cases. Finalize GUI work the view vehicle functionality, and finish implementing a separate warranty class for vehicles.	O
Ajiri Owuasu	Finalize logic for installing parts on a vehicle. Finish work on test cases. Make sure code is well commented and legible. Ensure design consistency with the rest of the application.	O
Tanzil Lashkor	Finish work on test cases. Find any and all bugs within the bill module. To change code to fit the use of a separate warranty class.	O

### Issues:

Name:	Risks & Issues:
Shona Lowden	
Hasnain Bukhari	Authentication is not working for new users, this is a critical bug and needs to be fixed.
Orri Jonsson	Some of the functionality for selecting multiple vehicle records at once and open all of them from the table is not working properly, may need to rewrite or change original intention with that design and allow only opening or editing one vehicle at a time.
Ajiri Owuasu	Needs to make sure all relevant data is both inserted into the database correctly, and that it is fetched properly. Also needs to make the GUI look in line with the rest

	of the application.
Tanzil Lashkor	The separate warranty class for vehicles means a rewrite of the sql statements and direct editing of tables is required, might also change the other modules.
