Meeting Minutes
Group Number: 39
Meeting Date:
Checkpoint Meeting?
Next Meeting:

Attendance:
Present: P | Absence (Approved): AA | Absence (Uninformed): A

Name	Present?
Shona Lowden	
Hasnain Bukhari	P
Orri Jonsson	P
Ajiri Owuasu	P
Tanzil Lashkor	P

Progress Review (From Last Meeting):
Completed: C | Ongoing: O | No Report: N

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Add confirmation to delete customer, start view customer page, finish main customer page. Add clear comments to the code.	C
Orri Jonsson	Put final touches on functions required in the Vehicle Records module. Improve on the current GUI implementation for the module, and give it actual functionality.	C
Ajiri Owuasu	Finalize logic and functionality for the Parts module and ensure functional database connections for the module.	C
Tanzil Lashkor	Adding final touches to the Booking module e.g. error handling, catch statements and test module extensively.	C

Plans (For Next Meeting):

Completed: C | Ongoing: O | No Report: N

Name	Task(s)	Status
Shona Lowden		
Hasnain Bukhari	Continue work on commenting code, plus adding more functionality and polish to the view customer page. Along with continuing work on other code for the main customer page.	O
Orri Jonsson	Need to polish GUI work, and work on the table view of the GUI and have it display the vehicle records properly. Also need to improve it so multiple records can be selected and then viewed / modified.	O
Ajiri Owuasu	Continue polishing the parts module work, especially in regards to the class logic in the functions and fixing any and all errors in the database connection.	O
Tanzil Lashkor	Allow proper interaction with the table in the GUI, and have it display proper data from the loaded database as described in the documents.	O

Issues:

Name:	Risks & Issues:
Shona Lowden	
Hasnain Bukhari	There have been a lot of database issues such as it becoming locked for some reason, and this needs to be sorted out so that it does not occur more often and wont interrupt the work of others on the team.
Orri Jonsson	Falling behind our scheduled timeline of work in trying to connect and work on GUI. This could lead to less time being available to help with integration with the other modules.

Ajiri Owuasu	Ensuring completion of the module before week 8, so that integration can be better worked on with the group.
Nabhan Lashkor	Incorrect data addition to the database, or not valid data entered getting through checks. If such a thing were to happen, it could also potentially affect other modules.
